1 Executive Summary

Tuesday Night Football has now completed **21 matches** between 30 December 2025 and 07 July 2026, with **32 different players** pulling on (or refusing to pull on) a bib. Between them they have scored **262 goals** — an average of 12.5 per night — in front of an average “crowd” of 14.3 participating players.

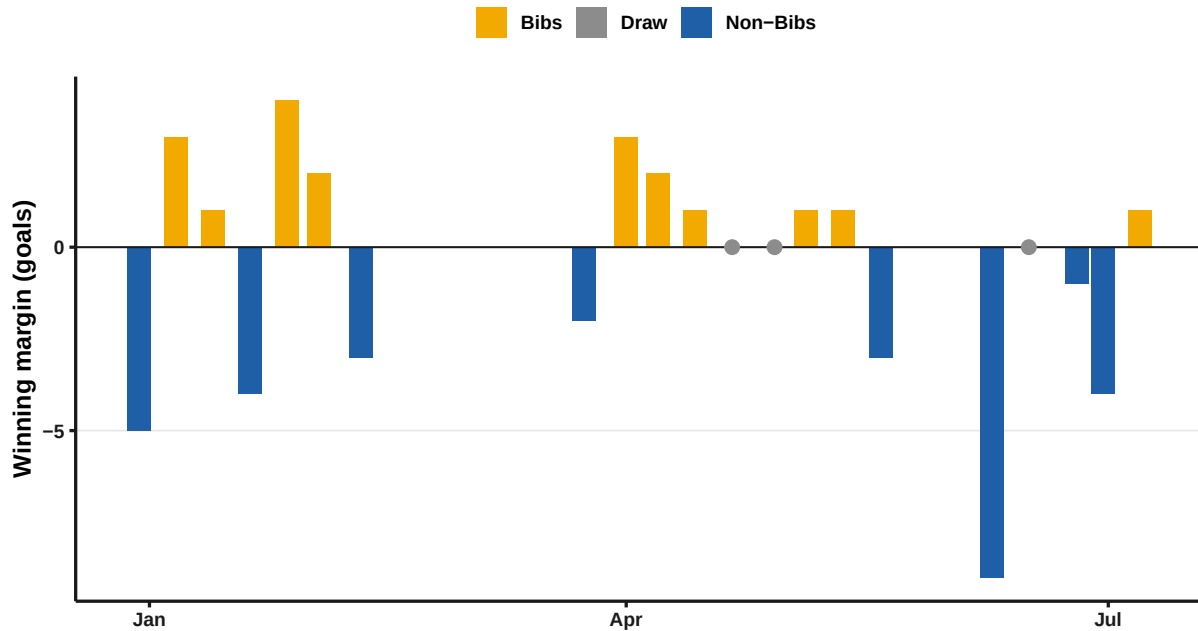

- Across 21 matches, 32 different players have taken the field, scoring 262 goals (12.5 per match).
- Bibs have won 48% of matches (10W-3D-8L; 95% CI 28%-68%).
- The biggest victory was 4-13 to the Non-Bibs on 09 June 2026.

- The wildest scoreline was 18-19 on 25 June 2026 - 37 goals in one night.
- Ismael Nazar holds the record for most appearances (19 of 21 matches).
- Shergal Rodaina has the best win percentage among players with at least 8 appearances: 56% (10W-2D-6L; 95% CI 34%-75%).
- Riz Khan has endured the toughest season of the regulars: a 11% win rate from 9 appearances.
- Ismael Nazar's teams outscore opponents by 21 goals across 19 appearances - the best goal difference in the club.
- Darren Ellis put together the longest personal winning streak: 5 matches in a row.
- Haris Farooq is the most reliable attendee, playing 95% of matches since their first appearance.
- Darren Ellis and Ismael Nazar are the most successful partnership (min 5 matches together): 80% wins from 5 matches side by side.
- Ismael Nazar and Lee are practically inseparable - teammates in 12 matches, more than any other pair.
- The most one-sided rivalry: when Darren Ellis plays against Haris Farooq, Darren Ellis's team wins 83% of the 6 meetings.
- Ismael Nazar is the network's most influential player by PageRank - the closest thing Tuesday nights have to a social hub.
- Disciplinary record: 2 red card(s) - Umar Zaffar and Suki, both on 09 June 2026 (the night recorded simply as 'the fight').

2 Season Overview

Every result, at a glance

Bars above the line are Bibs wins, below are Non-Bibs wins; bar height = winning margin

Each bar is one Tuesday. Bars pointing up are Bibs wins, bars pointing down are Non-Bibs wins, and the bar's height shows how comfortable the win was. Grey dots on the line are draws.

From bib colour to full-time result

How each side's 21 matches split into wins, draws and losses

This flow diagram takes each side's matches (left) and shows how they ended up (right). The thicker the ribbon, the more matches took that path.

Insight. Bibs lead the all-time series: 10 wins to 8 with 3 draws. Their 48% win rate carries a 95% confidence interval of 28%–68%, so the jury is technically still out.

3 Match Statistics

3.1 The record so far

Table 1: All-time record by side

Team	P	W	D	L	GF	GA	GD	Win %	95% CI
Bibs	21	10	3	8	125	137	-12	48%	28%–68%
Non-Bibs	21	8	3	10	137	125	12	38%	21%–59%

Table 2: Streaks by side

Team	Longest win streak	Longest unbeaten	Longest losing run	Current run
Bibs	3	7	2	1W
Non-Bibs	2	5	3	1L

3.2 Biggest victories

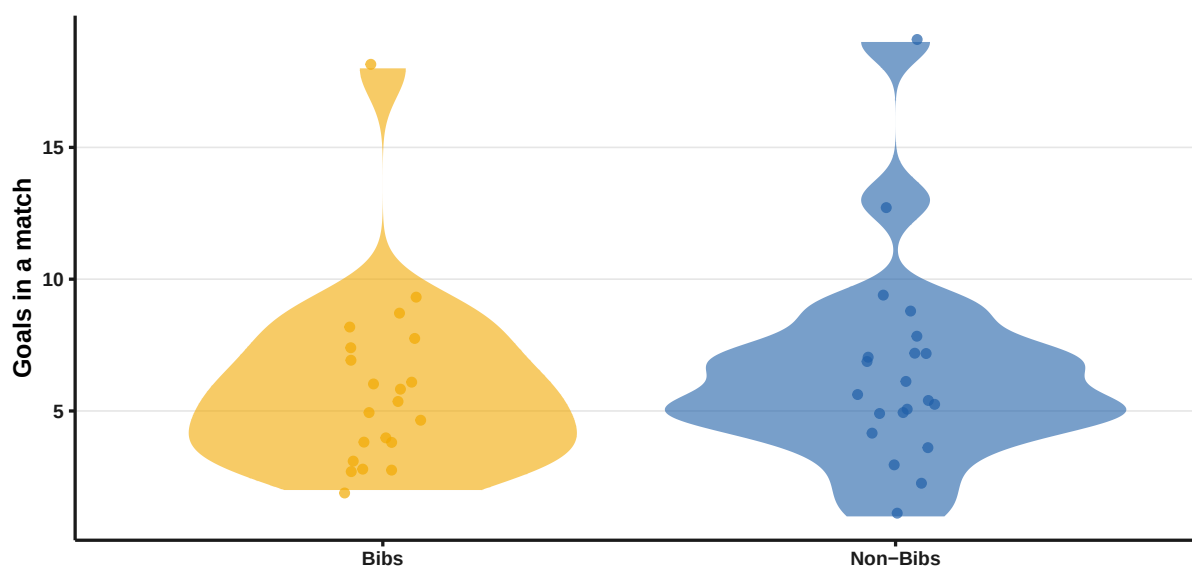

Table 3: Most emphatic wins (score shown as Bibs–Non-Bibs)

Date	Score	Winner	Margin	Attendance
09 Jun 2026	4-13	Non-Bibs	9	14
30 Dec 2025	3-8	Non-Bibs	5	14
20 Jan 2026	3-7	Non-Bibs	4	14
27 Jan 2026	7-3	Bibs	4	14
30 Jun 2026	3-7	Non-Bibs	4	14

3.3 Scoring

Scoring distributions

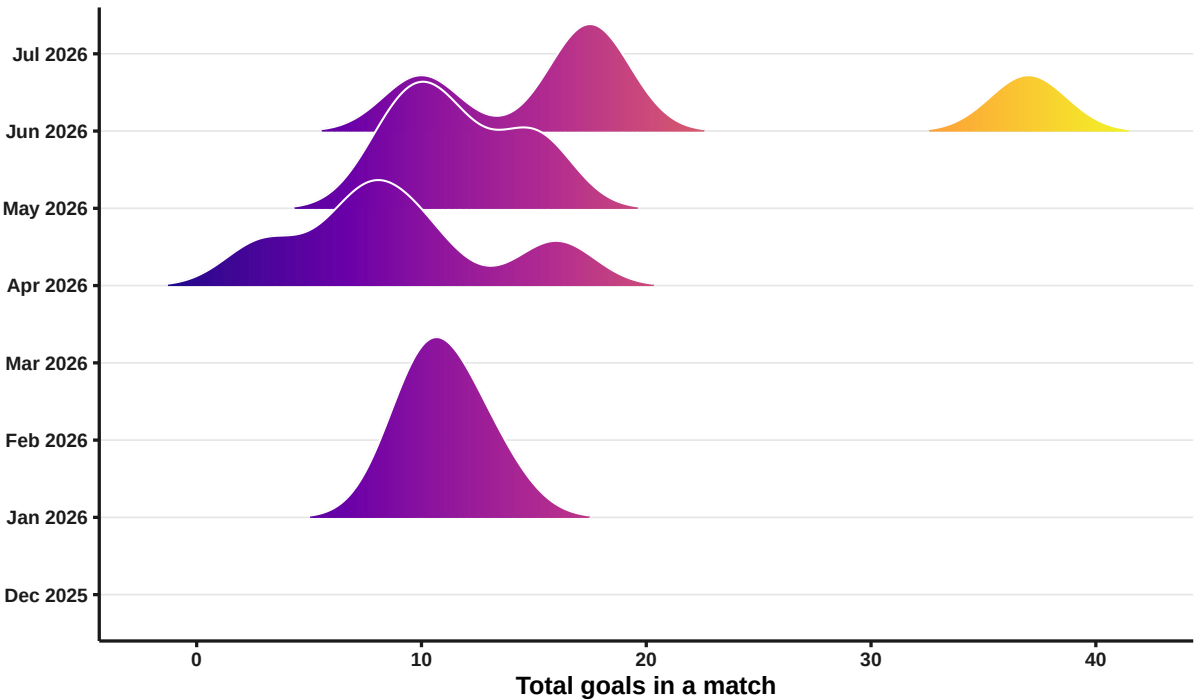

Goals scored per match by each side; every dot is one match

Each dot is one team's goal tally in one match. The coloured shapes show where tallies bunch up: both sides usually score between three and nine, with the occasional night of total madness.

Total goals per night, month by month

Distribution of combined scorelines in each month

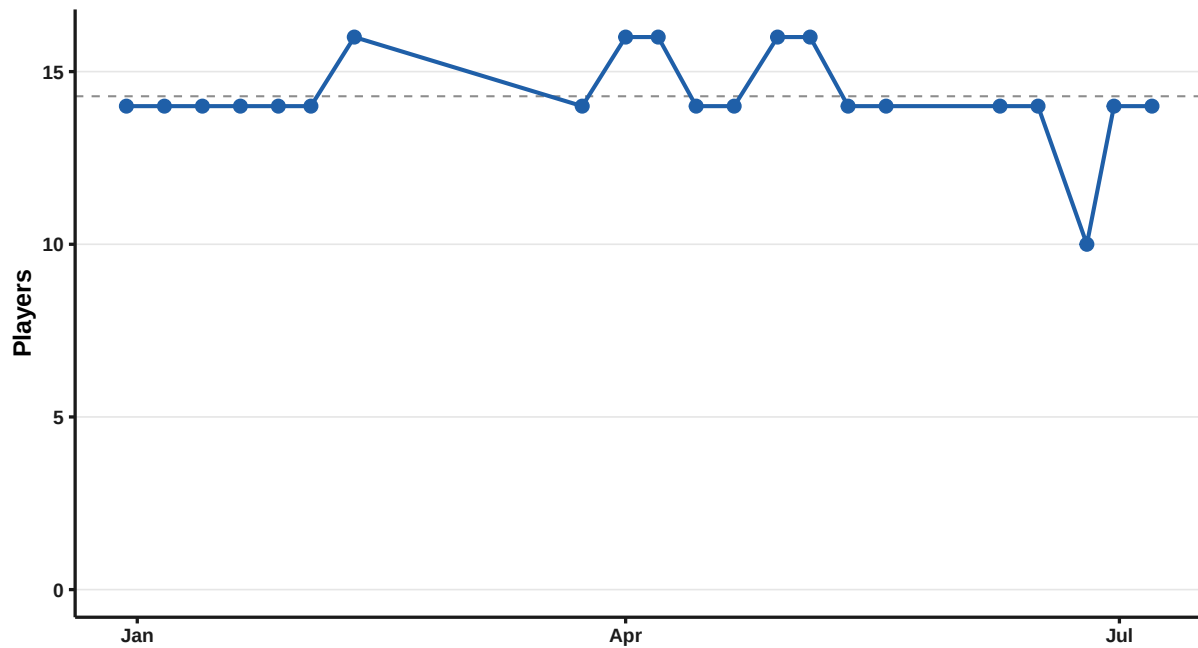

Each ridge is a month. The further right the bump, the more goals flew in that month — the spike on the far right is the legendary 18–19 night of 25 June.

3.4 Attendance

Who's turning up on Tuesdays?

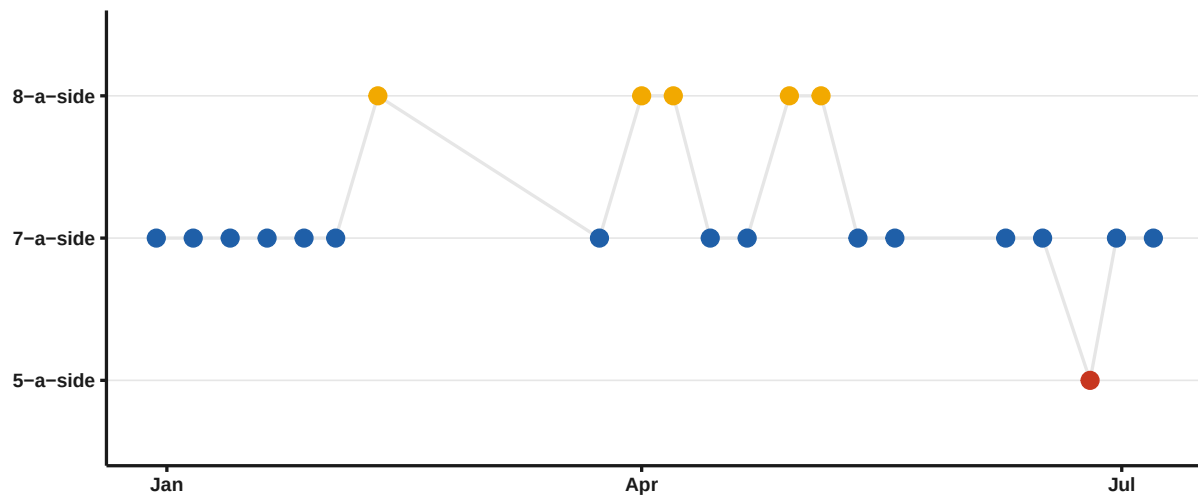

Players per match night; dashed line = season average (14.3)

Each dot is the number of players who turned up that Tuesday. The dashed line is the season average, so dots above it were busy nights.

What game are we playing?

Format of each match night (1x 5-a-side, 15x 7-a-side, 5x 8-a-side)

Each dot is a match night, categorised by format: with two teams of roughly equal size, the night is either 5-, 7- or 8-a-side.

4 Player Statistics

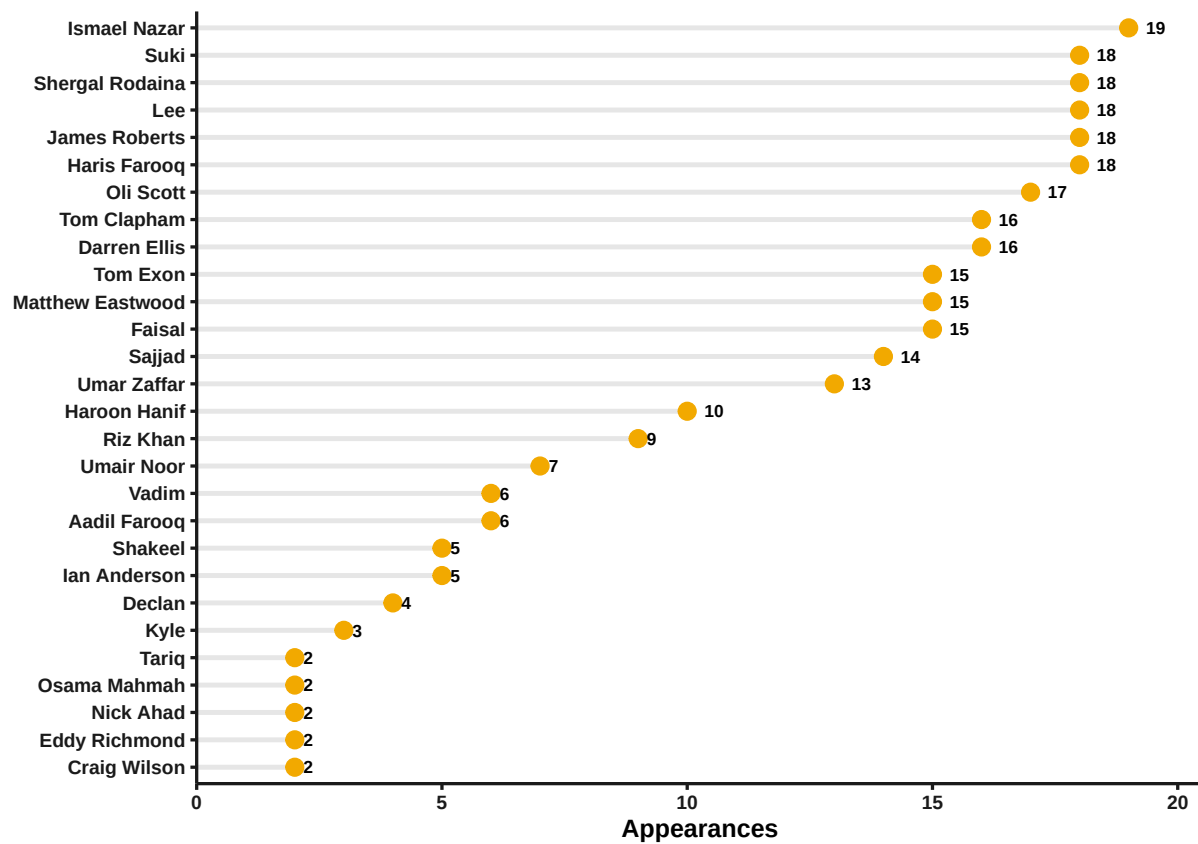

4.1 The headline table

Table 4: All players: appearances, results and goals while on the pitch. * = fewer than 8 appearances, treat with caution

Player	Apps	W	D	L	Win %	GF	GA	GD	Streak	Small?
Ismael Nazar	19	10	2	7	53%	130	109	21	2W	
Shergal Rodaina	18	10	2	6	56%	118	109	9	1L	
Lee	18	8	3	7	44%	127	107	20	1L	
Suki	18	8	2	8	44%	117	105	12	1W	
Haris Farooq	18	7	3	8	39%	95	106	-11	1W	
James Roberts	18	4	3	11	22%	91	112	-21	1W	
Oli Scott	17	8	3	6	47%	115	104	11	3W	
Darren Ellis	16	8	2	6	50%	106	92	14	1W	
Tom Clapham	16	6	0	10	38%	77	97	-20	3L	
Faisal	15	7	1	7	47%	95	111	-16	2L	
Matthew Eastwood	15	7	3	5	47%	81	71	10	1D	
Tom Exon	15	6	2	7	40%	97	99	-2	3W	
Sajjad	14	6	2	6	43%	70	78	-8	1L	
Umar Zaffar	13	5	2	6	38%	71	76	-5	3L	
Haroon Hanif	10	4	1	5	40%	63	62	1	3L	
Riz Khan	9	1	3	5	11%	49	62	-13	1L	
Umair Noor	7	2	2	3	29%	30	33	-3	2D	*
Vadim	6	5	0	1	83%	61	43	18	1W	*
Aadil Farooq	6	3	2	1	50%	35	36	-1	1W	*
Shakeel	5	4	1	0	80%	31	22	9	1D	*
Ian Anderson	5	1	1	3	20%	24	32	-8	1L	*
Declan	4	1	0	3	25%	18	27	-9	3L	*
Kyle	3	2	1	0	67%	16	11	5	1W	*
Osama Mahmah	2	2	0	0	100%	15	11	4	2W	*
Craig Wilson	2	1	0	1	50%	11	13	-2	1W	*
Eddy Richmond	2	1	0	1	50%	9	13	-4	1W	*
Nick Ahad	2	1	1	0	50%	16	12	4	1W	*
Tariq	2	0	1	1	0%	12	17	-5	1D	*
Fezaan	1	0	1	0	0%	9	9	0	1D	*
Hamad	1	0	0	1	0%	7	8	-1	1L	*
Marc Coleman	1	0	0	1	0%	7	8	-1	1L	*
Zahid Iqbal	1	0	0	1	0%	3	8	-5	1L	*

The ever-presents

Total appearances per player

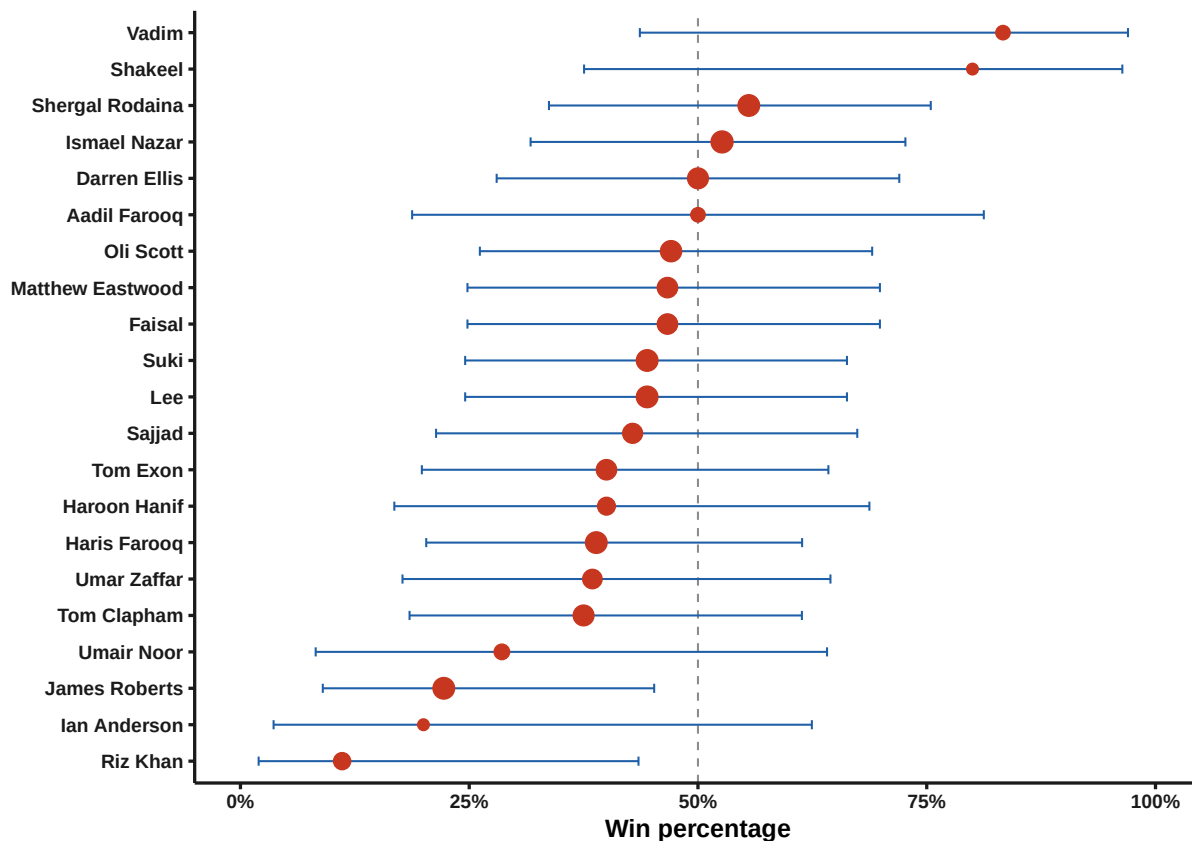

The club's most devoted attendees. Each stick shows the total number of Tuesdays a player has turned out for.

4.2 Win rates (and how sure we can be)

Win rates, with honesty bars

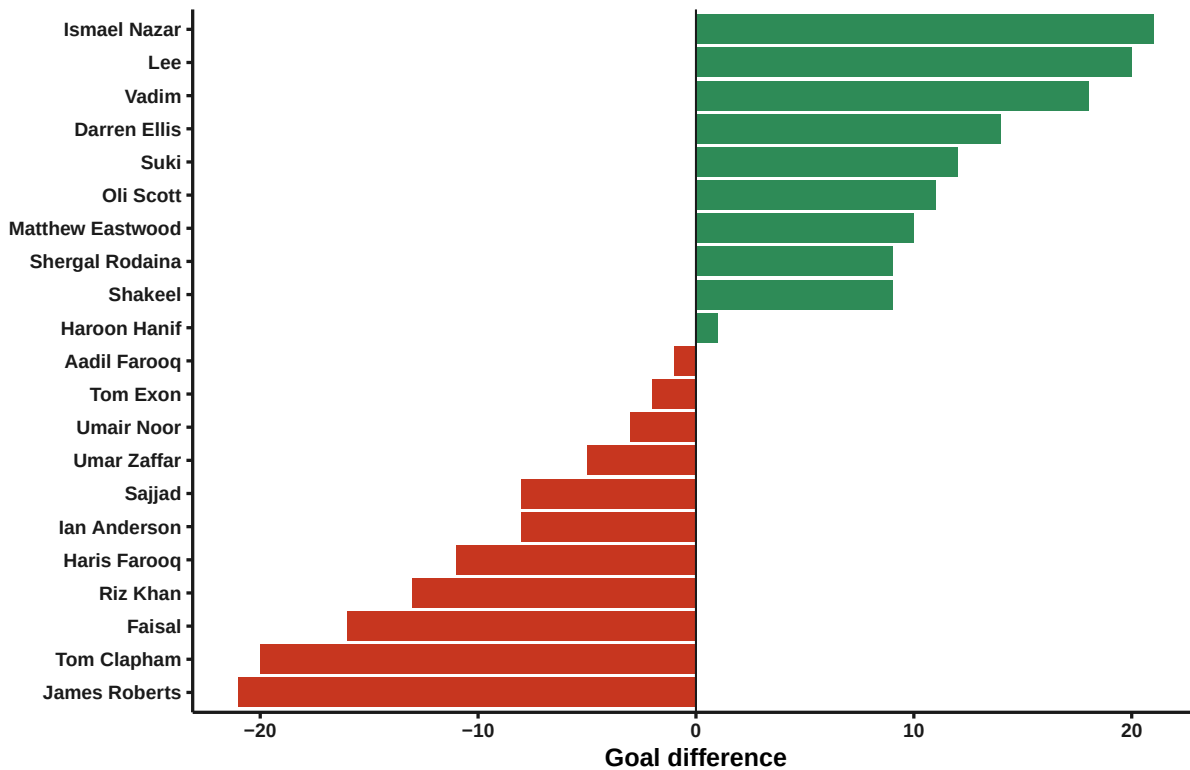

Players with 5+ appearances; whiskers are 95% Wilson intervals – wide bars mean small samples

The dot is each player's win rate; bigger dots mean more matches. The whiskers show the range where the "true" win rate plausibly lives — the wider the whisker, the less the sample tells us. Almost every whisker crosses the 50% line, which is football's way of saying it is nicely balanced.

Lucky charms and bad omens

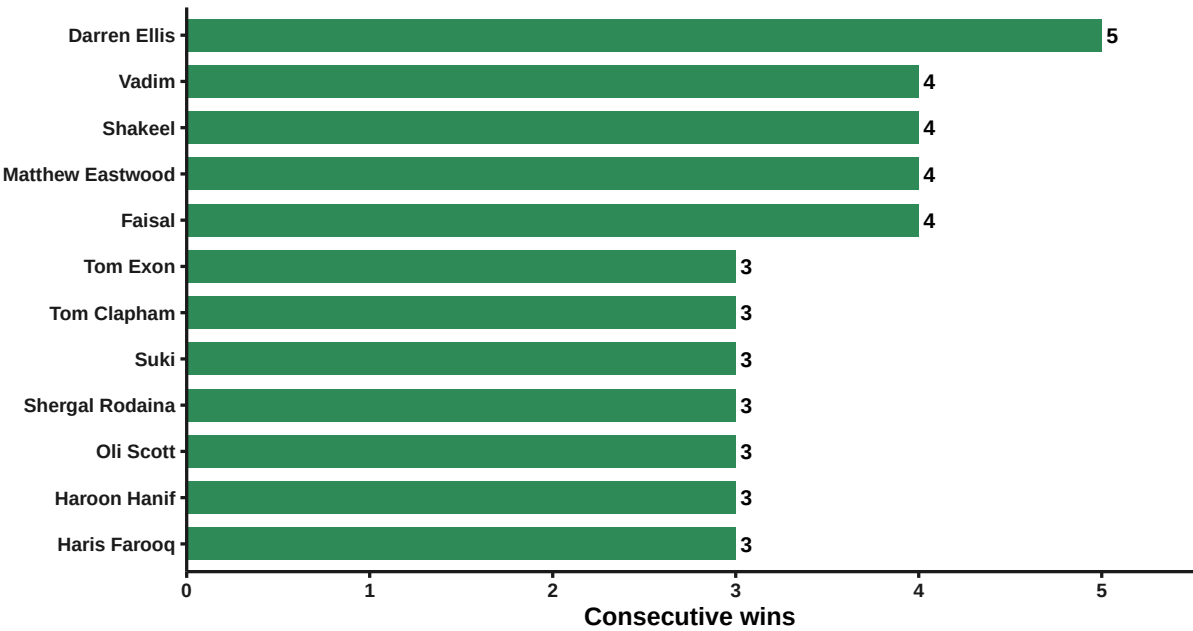

Team goal difference while each player (5+ apps) is on the pitch

Green bars: the team outscores opponents when this player plays. Red bars: the opposite. This blends personal quality, teammates and pure luck — which is exactly why it makes for good arguments.

Hot streaks

Longest run of consecutive wins per player

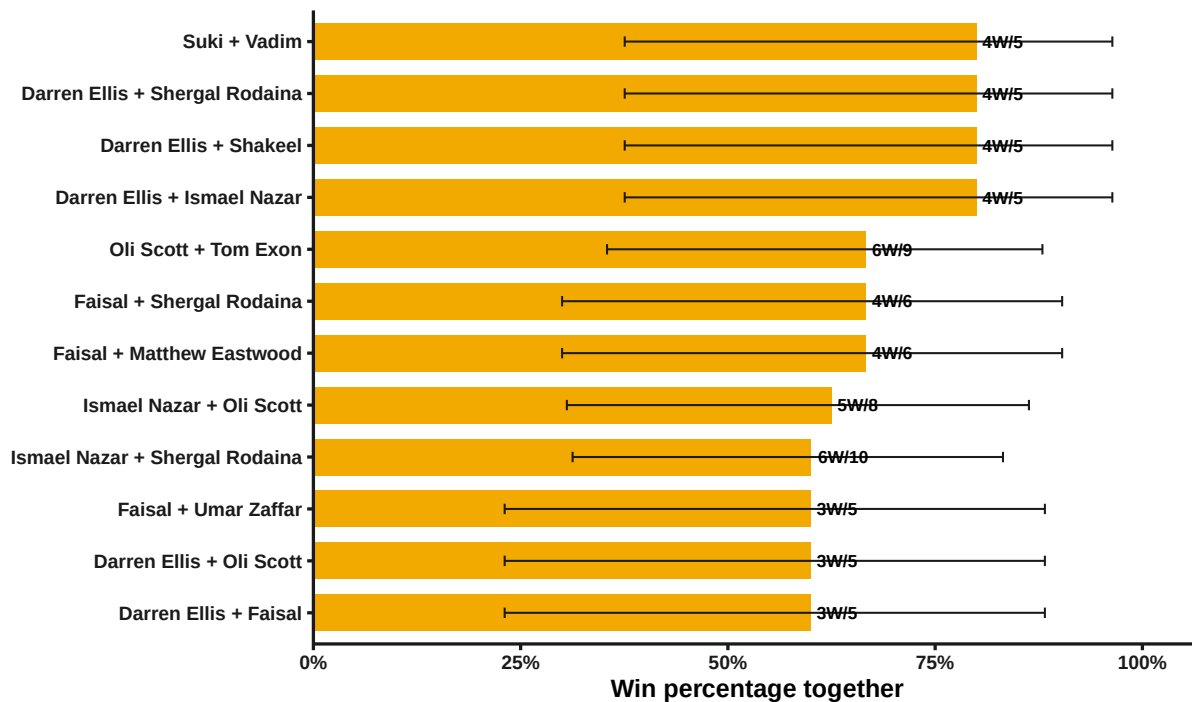

The longest unbroken run of wins each player has ever been part of.

Insight. Shergal Rodaina tops the win table among regulars at 56%, while Haris Farooq is the metronome of the group, present for 95% of all matches since debuting.

5 Partnerships

Dream teams

Best win rates among pairs with 5+ matches together (whiskers: 95% Wilson CI)

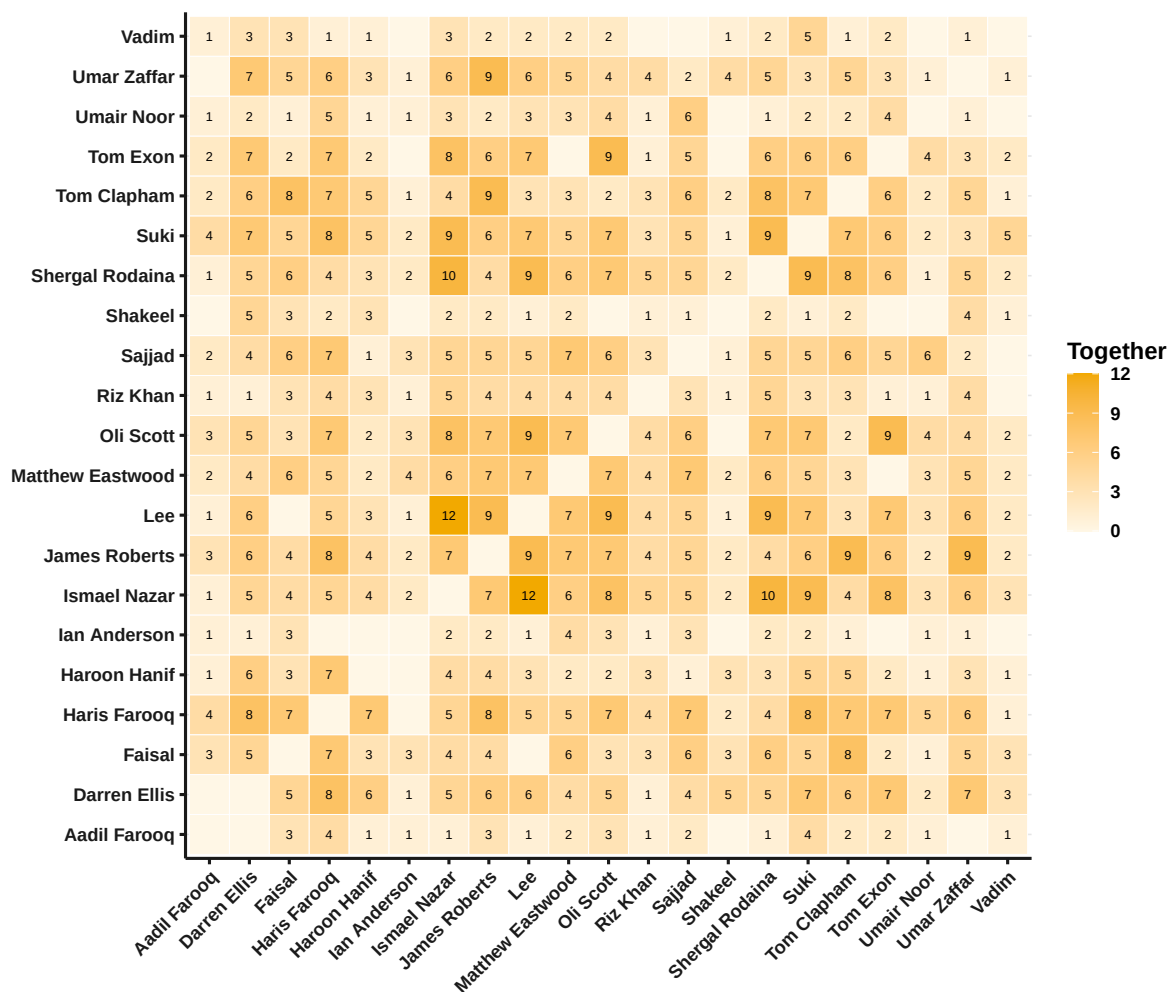

The best-performing duos among pairs who have shared a team at least five times. The label shows wins out of matches together; whiskers again show the uncertainty.

Table 5: Most frequent partnerships (8+ matches together)

Pair	Together	W	D	L	Win %	GD
Ismael Nazar + Lee	12	7	2	3	58%	25
Ismael Nazar + Shergal Rodaina	10	6	1	3	60%	9
Ismael Nazar + Suki	9	5	0	4	56%	15
James Roberts + Lee	9	1	3	5	11%	-5
James Roberts + Tom Clapham	9	2	0	7	22%	-17
James Roberts + Umar Zaffar	9	2	2	5	22%	-13
Lee + Oli Scott	9	5	0	4	56%	12
Lee + Shergal Rodaina	9	5	1	3	56%	10
Oli Scott + Tom Exon	9	6	1	2	67%	14
Shergal Rodaina + Suki	9	5	0	4	56%	5
Darren Ellis + Haris Farooq	8	3	2	3	38%	2
Faisal + Tom Clapham	8	4	0	4	50%	-14

Who plays with whom

Matches on the same team, all regular pairs

How often every pair of regulars has been on the same team. Deep orange squares are near-inseparable teammates; blank squares are pairs the bib randomiser has kept apart.

6 Team Chemistry

Table 6: Best trios (4+ matches together)

Trio	Together	W	D	L	Win %
Ismael Nazar + Lee + Oli Scott	6	5	0	1	83%
Ismael Nazar + Oli Scott + Shergal Rodaina	5	4	0	1	80%
Ismael Nazar + Oli Scott + Tom Exon	5	4	0	1	80%
Lee + Oli Scott + Shergal Rodaina	5	4	0	1	80%
Lee + Oli Scott + Tom Exon	5	4	0	1	80%
Darren Ellis + Oli Scott + Tom Exon	4	3	1	0	75%
Darren Ellis + Shakeel + Umar Zaffar	4	3	1	0	75%
Faisal + Matthew Eastwood + Sajjad	4	3	0	1	75%
Ismael Nazar + Shergal Rodaina + Tom Exon	4	3	0	1	75%
Lee + Shergal Rodaina + Tom Exon	4	3	0	1	75%

Table 7: Best quartets (3+ matches together)

Quartet	Together	W	Win %
Ismael Nazar + Lee + Oli Scott + Shergal Rodaina	4	4	100%
Ismael Nazar + Lee + Oli Scott + Tom Exon	4	4	100%
Darren Ellis + Faisal + Shakeel + Umar Zaffar	3	3	100%
Ismael Nazar + Lee + Shergal Rodaina + Tom Exon	3	3	100%
Ismael Nazar + Oli Scott + Shergal Rodaina + Tom Exon	4	3	75%
Lee + Oli Scott + Shergal Rodaina + Tom Exon	4	3	75%
Darren Ellis + Haris Farooq + Haroon Hanif + Umar Zaffar	3	2	67%
Darren Ellis + Ismael Nazar + Lee + Tom Exon	3	2	67%

Table 8: Best quintets (3+ matches together)

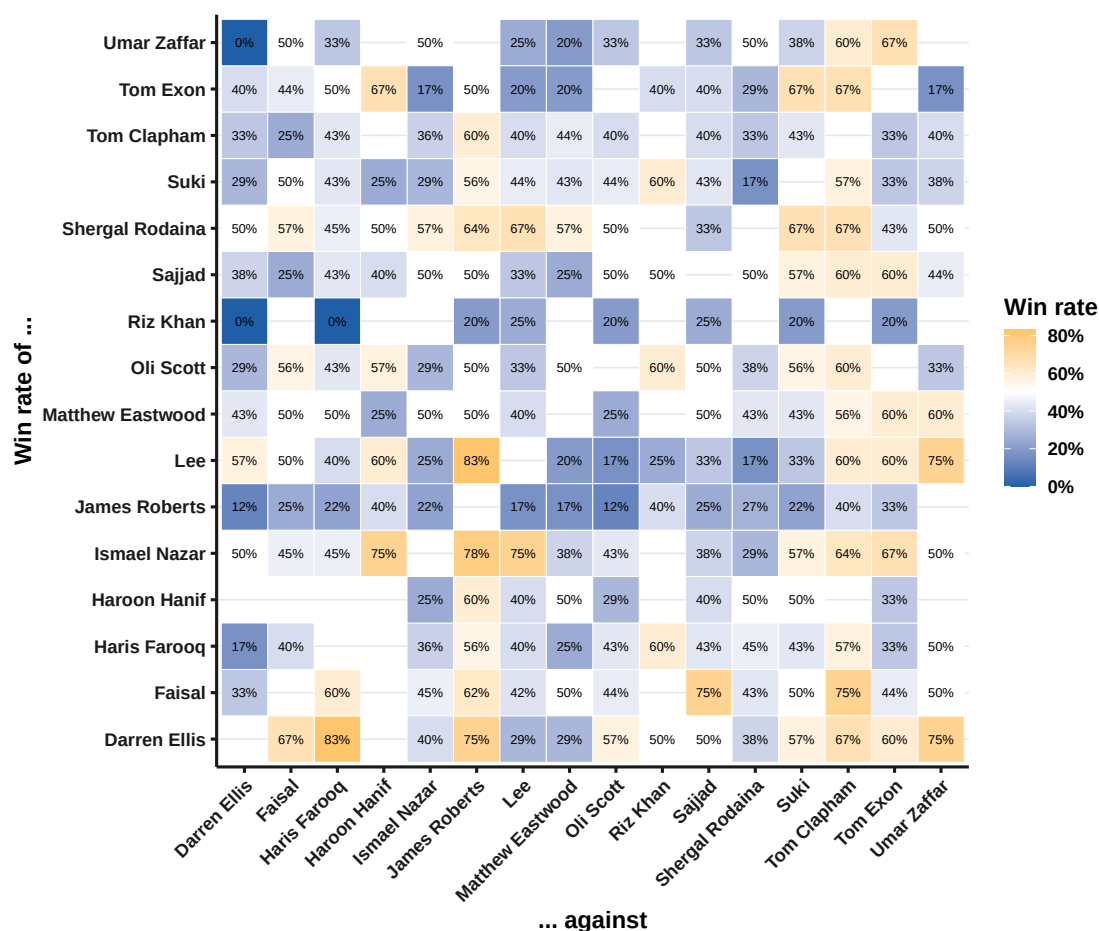

Quintet	Together	W	Win %
Ismael Nazar + Lee + Oli Scott + Shergal Rodaina + Tom Exon	3	3	100%

Insight. Squad turnover is real: on average only 58% of one Tuesday’s squad overlaps with the next (Jaccard similarity), so the bib randomiser gets fresh material every week.

6.1 Who beats whom

Who beats whom

Row player's win rate when facing the column player (4+ meetings)

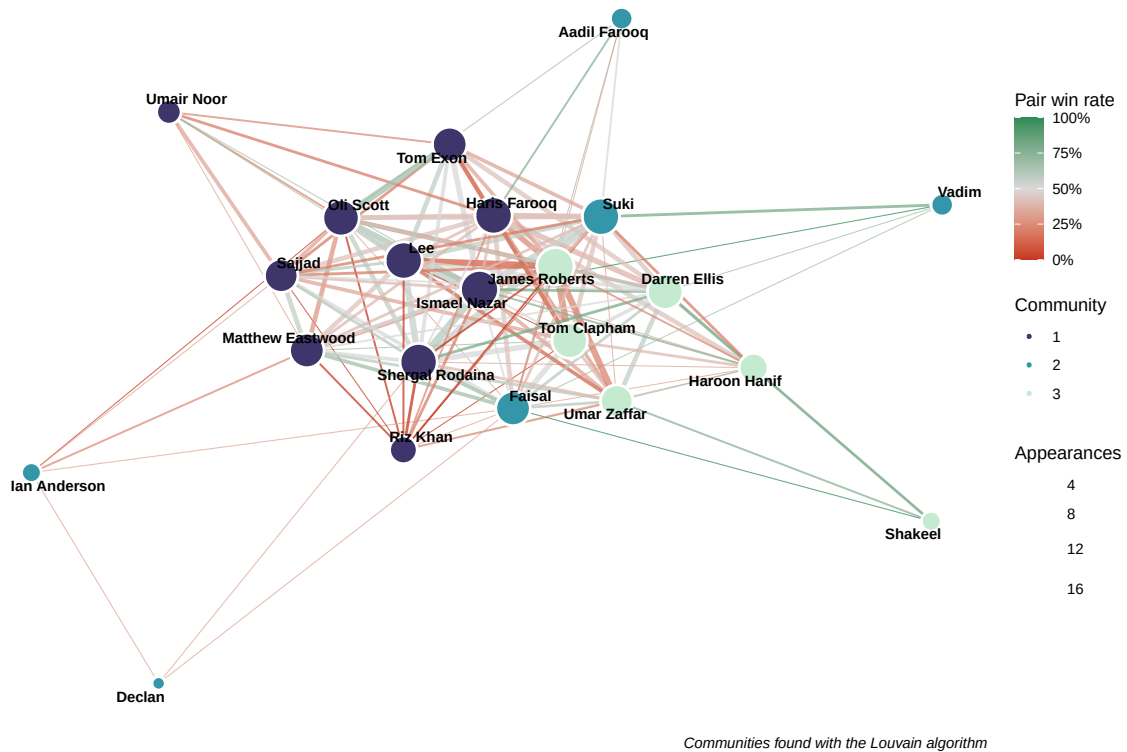

Read along a row: the colour shows how often that player's team beats the column player's team when they are on opposite sides. Orange = dominance, blue = suffering. Only match-ups with four or more meetings are shown.

- When Ismael Nazar plays against James Roberts, Ismael Nazar's team wins 78% of matches (7W-0D-2L from 9 meetings).
- When Ismael Nazar plays against Tom Clapham, Ismael Nazar's team wins 64% of matches (7W-0D-4L from 11 meetings).
- When Shergal Rodaina plays against James Roberts, Shergal Rodaina's team wins 64% of matches (7W-1D-3L from 11 meetings).
- When Darren Ellis plays against James Roberts, Darren Ellis's team wins 75% of matches (6W-1D-1L from 8 meetings).
- When Lee plays against Tom Clapham, Lee's team wins 60% of matches (6W-0D-4L from 10 meetings).
- When Matthew Eastwood plays against Tom Exon, Matthew Eastwood's team wins 60% of matches (6W-2D-2L from 10 meetings).
- When Oli Scott plays against Tom Clapham, Oli Scott's team wins 60% of matches (6W-0D-4L from 10 meetings).
- When Darren Ellis plays against Haris Farooq, Darren Ellis's team wins 83% of matches (5W-0D-1L from 6 meetings).

7 Network Analysis

The Tuesday night network

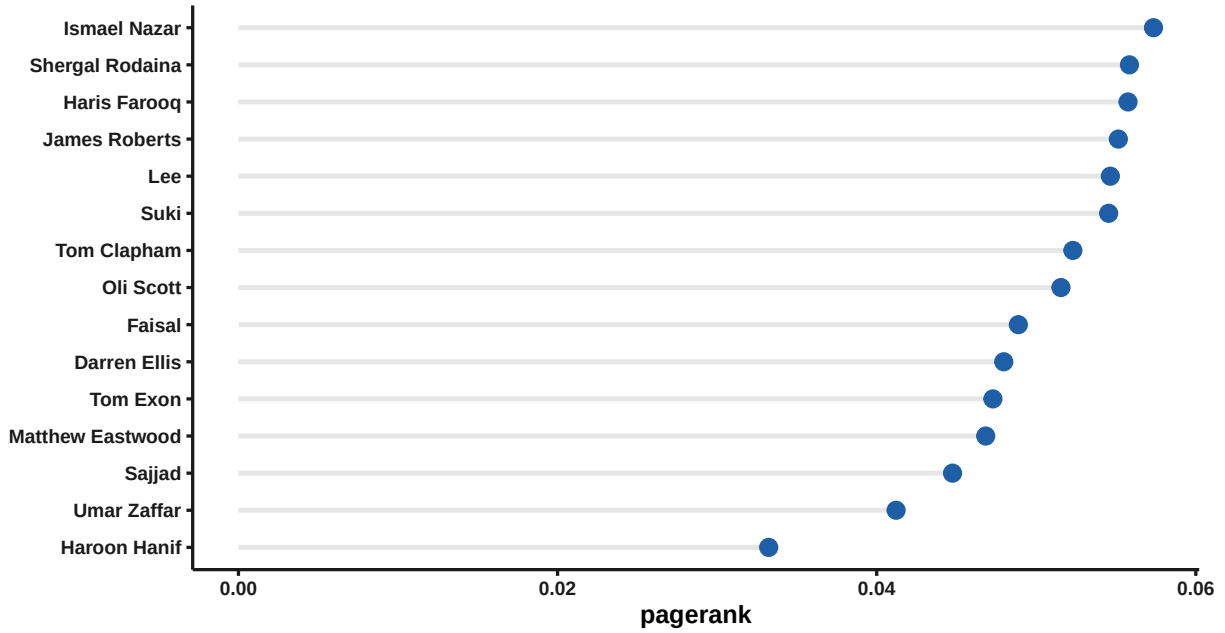

Players linked by 3+ matches together; line thickness = matches together, colour = win rate as a pair

Every line connects two players who have shared a team at least three times. Thick lines are long-running partnerships; green lines win together, red lines lose together. The node colours are “communities” — clusters of players the algorithm thinks belong to the same social orbit.

The social hubs of TNF

Player influence by pagerank in the co-appearance network

PageRank — the algorithm Google made famous — applied to *Tuesday night*: players score highly for repeatedly sharing teams with other well-connected players.

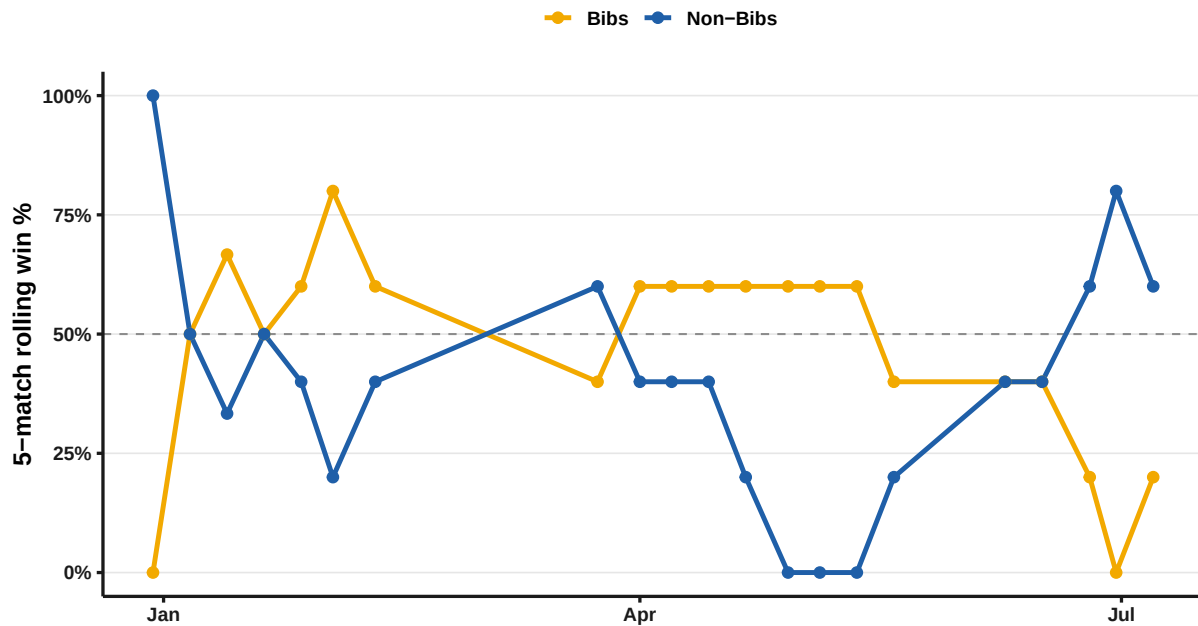

Table 9: Network centrality (top 12 by PageRank)

Player	Degree	Strength	Betweenness	Closeness	PageRank
Ismael Nazar	25	116	19.9	0.076	0.0573
Shergal Rodaina	28	110	27.8	0.077	0.0558
Haris Farooq	23	113	66.8	0.079	0.0558
James Roberts	24	112	22.1	0.077	0.0551
Lee	25	108	34.1	0.077	0.0546
Suki	24	111	32.5	0.077	0.0545
Tom Clapham	28	100	45.3	0.077	0.0523
Oli Scott	24	104	2.5	0.074	0.0515
Faisal	26	92	80.5	0.075	0.0489
Darren Ellis	23	97	18.3	0.073	0.0480
Tom Exon	24	91	19.8	0.074	0.0473
Matthew Eastwood	24	93	16.0	0.072	0.0468

8 Time Trends

Momentum swings

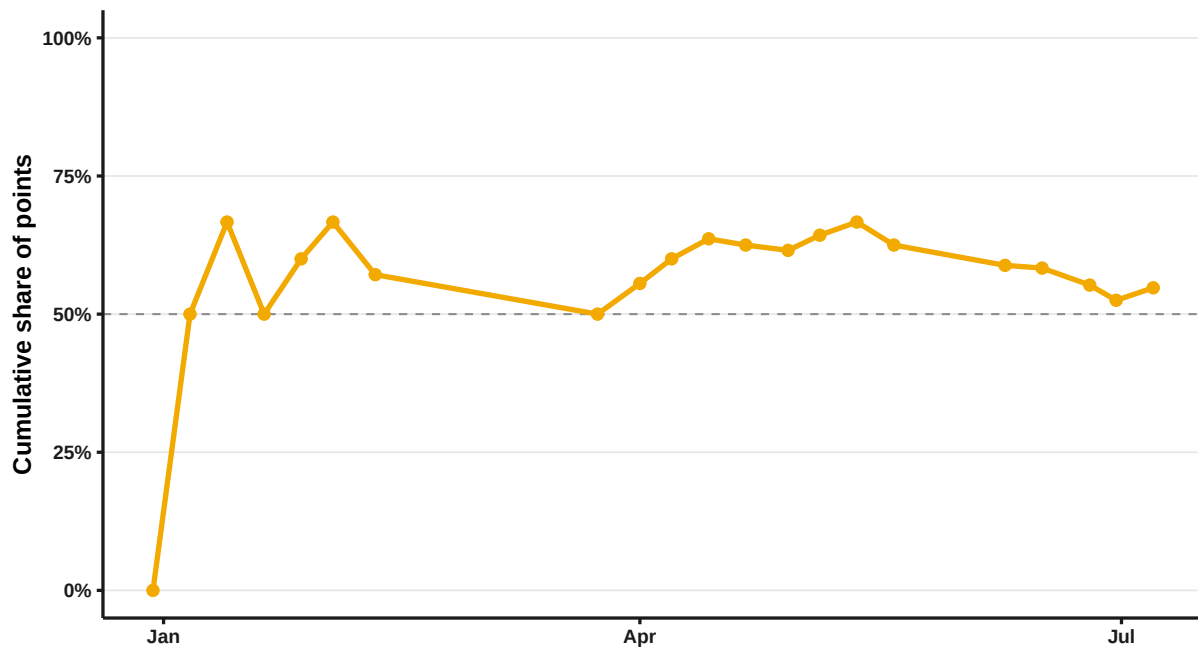

Rolling win percentage over the last 5 matches for each side

Form over time: each line shows the share of the last five matches each side has won. When the orange line is on top, Bibs are the team to be on.

Bib dominance over time

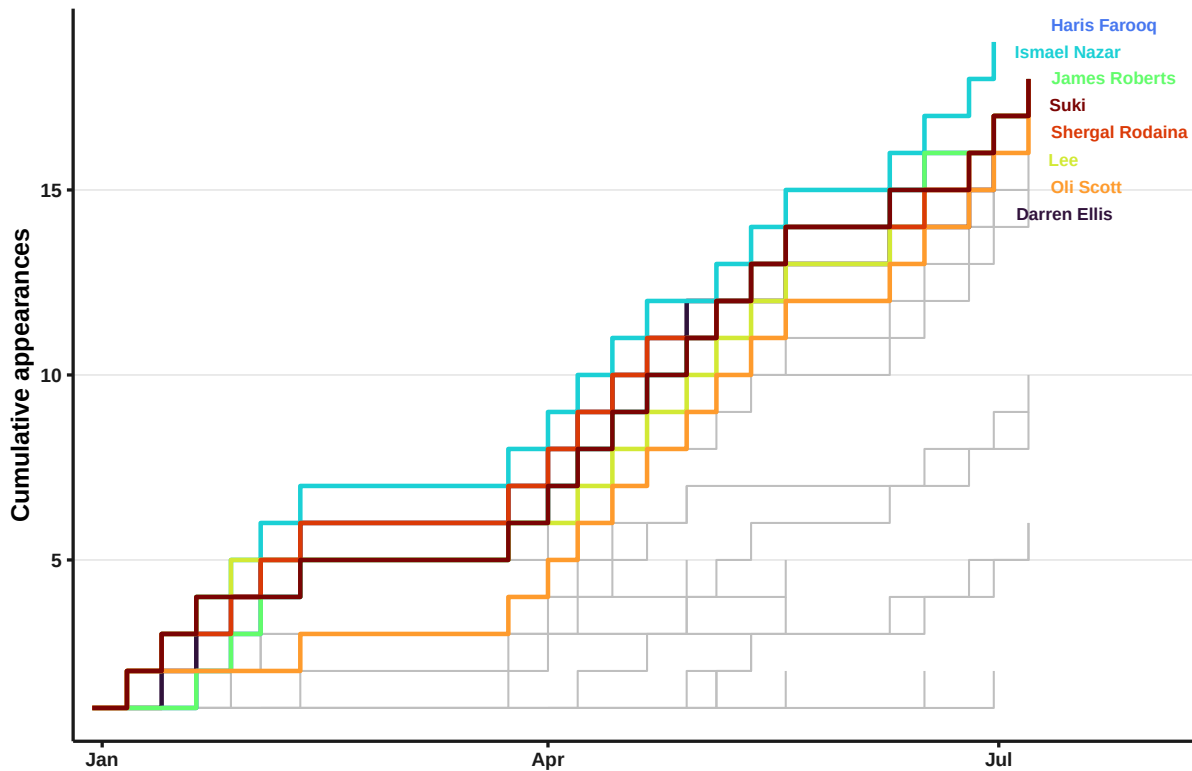

Bibs' cumulative share of available points (win = 1, draw = ..); above the dashed line means Bibs lead the seas

The season-long tug of war: Bibs' share of all available points so far. Above the dashed line, Bibs lead the season; below it, Non-Bibs do.

The race for most appearances

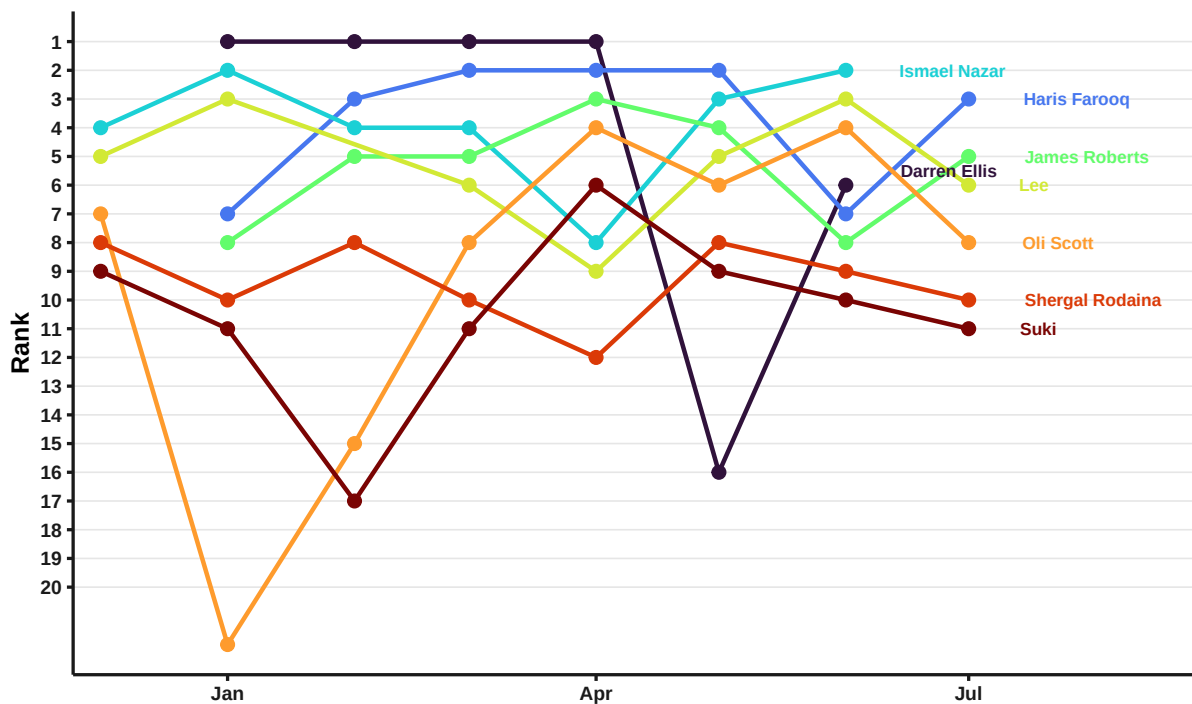

Cumulative appearances per player; the busiest players are labelled

Every player's appearance count as it grows through the season. The steepest lines belong to the ever-presents.

Monthly attendance pecking order

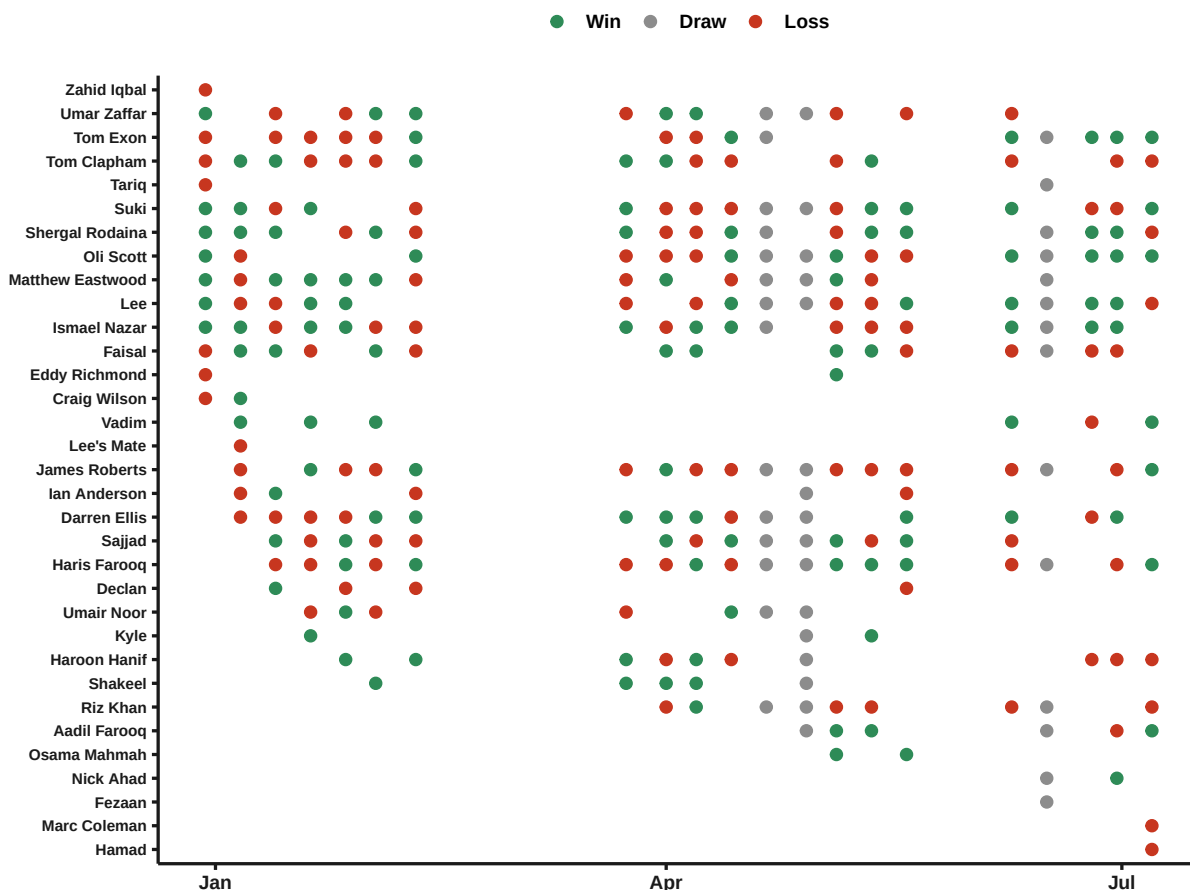

Rank of appearances per month for the 8 busiest players (1 = most matches that month)

Month by month, who turned up most? Rank 1 means the most appearances that month among the club's eight busiest players.

Every player's Tuesday story

One dot per appearance, coloured by result; players ordered by debut date

The whole season in one picture: each row is a player (newest at the top), each dot an appearance, coloured by how the night ended.

Insight. Month-to-month retention averages 77%: most of the squad comes back for more. Meanwhile 19 new players debuted after the opening month, keeping the pool fresh.

9 Interesting Facts

1. Across 21 matches, 32 different players have taken the field, scoring 262 goals (12.5 per match).
2. Bibs have won 48% of matches (10W-3D-8L; 95% CI 28%-68%).
3. The biggest victory was 4-13 to the Non-Bibs on 09 June 2026.
4. The wildest scoreline was 18-19 on 25 June 2026 - 37 goals in one night.
5. Ismael Nazar holds the record for most appearances (19 of 21 matches).
6. Shergal Rodaina has the best win percentage among players with at least 8 appearances: 56% (10W-2D-6L; 95% CI 34%-75%).
7. Riz Khan has endured the toughest season of the regulars: a 11% win rate from 9 appearances.
8. Ismael Nazar's teams outscore opponents by 21 goals across 19 appearances - the best goal difference in the club.
9. Darren Ellis put together the longest personal winning streak: 5 matches in a row.
10. Haris Farooq is the most reliable attendee, playing 95% of matches since their first appearance.

11. Darren Ellis and Ismael Nazar are the most successful partnership (min 5 matches together): 80% wins from 5 matches side by side.
12. Ismael Nazar and Lee are practically inseparable - teammates in 12 matches, more than any other pair.
13. The most one-sided rivalry: when Darren Ellis plays against Haris Farooq, Darren Ellis's team wins 83% of the 6 meetings.
14. Ismael Nazar is the network's most influential player by PageRank - the closest thing Tuesday nights have to a social hub.
15. Disciplinary record: 2 red card(s) - Umar Zaffar and Suki, both on 09 June 2026 (the night recorded simply as 'the fight').

10 Appendix

10.1 Full results

Table 10: Every match (score shown as Bibs–Non-Bibs)

Date	Score	Winner	Attendance	Note
30 Dec 2025	3 - 8	Non-Bibs	14	
06 Jan 2026	8 - 5	Bibs	14	
13 Jan 2026	6 - 5	Bibs	14

27 Jan 2026	7 - 3	Bibs	14	
02 Feb 2026	7 - 5	Bibs	14	
10 Feb 2026	3 - 6	Non-Bibs	16	
24 Mar 2026	4 - 6	Non-Bibs	14	
01 Apr 2026	5 - 2	Bibs	16	
07 Apr 2026	9 - 7	Bibs	16	
14 Apr 2026	2 - 1	Bibs	14	
21 Apr 2026	5 - 5	Draw	14	
29 Apr 2026	4 - 4	Draw	16	
05 May 2026	6 - 5	Bibs	16	
12 May 2026	5 - 4	Bibs	14	
19 May 2026	6 - 9	Non-Bibs	14	
09 Jun 2026	4 - 13	Non-Bibs	14	the fight
16 Jun 2026	9 - 9	Draw	14	
25 Jun 2026	18 - 19	Non-Bibs	10	
30 Jun 2026	3 - 7	Non-Bibs	14	
07 Jul 2026	8 - 7	Bibs	14	

10.2 Notable events

Table 11: Recorded events

Date	Event	Player	Detail
09 Jun 2026	red card	Umar Zaffar	Umar Zaffar (Bibs)
09 Jun 2026	red card	Suki	Suki (Non-Bibs)
09 Jun 2026	match note	<U+2014>	the fight

10.3 Player alias table

Table 12: Alias lookup used to standardise names

Alias	Canonical name	Ambiguous?	Note
Craig	Craig Wilson		Only one Craig in the squad
Craig Wilson	Craig Wilson		
Eddy	Eddy Richmond		
Umar	Umar Zaffar		
Shergal	Shergal Rodaina		
Oli	Oli Scott		
Ismael	Ismael Nazar		First-name shorthand
Ismaeel	Ismael Nazar		Spelling variant
Matt	Matthew Eastwood		
Matthew	Matthew Eastwood		
Matt Eastwood	Matthew Eastwood		
James	James Roberts		Only one James in the squad
Ian	Ian Anderson		
Darren	Darren Ellis		
Dec	Declan		
Declan	Declan		Surname unknown
Haris	Haris Farooq		
Harris	Haris Farooq		Spelling variant
Umair	Umair Noor		
Haroon	Haroon Hanif		
Riz	Riz Khan		
Rik	Riz Khan		Assumed typo for Riz
Comical A-Lee	Lee		Nickname used on 24/03/26
Lee's mate	Lee's Mate		Unnamed guest brought by Lee
Tom	Tom Clapham	yes	Ambiguous first name - two Toms in the squad
Tom	Tom Exon	yes	Ambiguous first name - two Toms in the squad

10.4 Data notes and assumptions

- The number in brackets after each team name is that team's **goals**, not its player count (attendances and squad sizes are derived from the listed names).
- Dates are day/month/year; two-digit years are assumed to be 20xx.
- Ambiguous first names (e.g. "Tom" on 27 January) are resolved by elimination within the match; every automatic decision is logged in `data/parse_issues.csv`.
- "Rik" is treated as a typo for Riz Khan; "Comical A-Lee" as a nickname for Lee; "Lee's mate" as an unnamed guest.
- Win percentages come with 95% Wilson score intervals. With 21 matches, almost all player-level differences are within the noise — which has never stopped a good argument.

Table 13: Parser and alias-resolution log

Date	Severity	Message
27 Jan 2026	info	'tom' listed 2x for Non-Bibs - left to the alias resolver
27 Jan 2026	info	Ambiguous name 'Tom' x2 resolved by elimination to: Tom Clapham, Tom Exon
